WICKENBURG DEPARTMENT

A SOCIAL FUNCTION ON THE HASSAYAMPA

Two Wickenburg Gentlemen Establish
ed Reputations as Entertainers

Wickenburg, Ariz., Aug. 27.—(Special Correspondence to Republican)—Progressive whist, plenty to eat and an all round good time, were the features of the meeting at the Solo club last night. The entertainers were Messrs. D. J. Curry and C. H. Widmeyer, and they are to be congratulated in the way they went about it. The task of mixing fifty odd claret punches for that many guests was not too much for them. They did it so well that some of the connoisseurs particularly well versed in this drink, pronounced it the best they had ever tasted.

A genuine Dutch lunch was served about 10 p. m., which was followed by more whist, and about midnight the guests partook of strawberries in a mode and cake. The lights in the club rooms went out about 1 a. m.

The following prizes to the successful players were given: First prize was won by Mrs. O. O. Davis and consisted of a beautiful engraved post card album.

The second prize, a bottle of imported perfume, was won by Mrs. C. C. Belknap.

Mr. W. T. Delano won the "booby" prize, which looked like a box of two for a quarter smokes, but when he opened it, he only found two, and they were not his favorite brand, either.

THE EFFORT INEFFECTUAL

(Continued from page 12.)

Dines no. Mr. Lukin having no vote in the case, the motion was declared a tie and accordingly lost. Consequently the matter stands exactly where it was before.

What, if any, further action in the matter will be taken cannot be stated at this time. It would seem, however, from the vote Friday evening, that whatever is done about it will have to be done outside of the council, as the sentiment of the members of the council has been well expressed. It would be useless at this time to recite what brought up this ineffectual effort to oust Mr. Lukin from the council, but it has been public knowledge for a long time that there was ill feeling between certain council members over certain things that have transpired in that body since the last election.

BACK FROM THE FAIR.

G. R. Finch returned yesterday afternoon from a visit to the fair at Seattle. Not only did he look over that big show, but he also stopped at practically all the points of interest between here and there. Though away but about three weeks, he managed to crowd into that space of time a great deal of sightseeing and enjoyment.

Further Business Transacted at the
Special Meeting of the Council.

In addition to the disposition of the charge against Mr. Lukin, the council transacted some other business at the special meeting that will mean much to the people of the town and will have much to do with building operations this fall. The matter referred to was practically covered in yesterday's Republican in a story relating to a plan Marshall Brown had formulated for extending the city water system to take in all of the Gage addition. Mr. Brown presented the plan as outlined in the paper yesterday and, while there was a question as to whether or not the town would be in a position financially to handle the project at this time, it was the unanimous opinion of the members that it should be done, even though it necessitated making a loan. It should not be judged from this that Tempe is hard up; on the contrary, the after fund alone has thousands of dollars out at interest, hence it is not a cash is a little short just now. It is believed, however, that by the time work is started there will be more than half enough in the fund to complete it, and the balance can be raised without any difficulty. Acting on this presumption, the council ordered the Marshal to proceed with the work. He will order the pipe at once.

Still another matter taken up, and for which the council should be commended, is the proposal to pass an ordinance prohibiting the building of tent houses and buildings of that character within certain limits. The attorney as instructed to draw up an ordinance covering the ground, and it is hoped to pass it at the next regular meeting. There is nothing that more detracts from the neat and pleasing appearance of a town than a number of unsightly tent houses scattered over it at frequent intervals, and the action of the council is one that will meet with the approval of the majority of the citizens.

A PLEASANT TOUR OF EASTERN STATES

G. A. Goodwin and family returned Thursday evening from an extensive Eastern trip covering a period of nearly two months. They stopped over for a time with relatives in St. Louis, and then going on east stopped at Washington, D. C. From there they went down the Potomac and up to New York by boat. After viewing the sights of New York, not overlooking Coney Island, they took steamer for Albany, and from there journeyed by rail to Buffalo and Niagara Falls. En route home again they stopped over at Chicago a short time. The trip was a delightful one in every respect and
